

Application Name
Hosted VoIP Seat

Description
Industry leading feature rich business grade telephony user application

Features & Benefits
Full range of business grade features including, remote working functionality, online and remote phone management and advanced directory features

Hosted VoIP Business Seat

With Hosted VoIP from provider Flip Connect, your business can start making significant savings and enhance your employee connectivity from day one.

One of the best things about our business VoIP services is that you don't need to pay for a PBX and you never have to see another maintenance man again, while you can enjoy state-of-the-art features as standard.

The system is a ready to go business solution, and all employees will be up and running in no time to make free on-net calls and substantial savings on all other calls.

Some of the features available on the business grade seat application. For a complete list please download our complete feature list pdf.
