Hosted Call Reporting

Flip Connect Call Reporting application provides business with a highly detailed Real-Time call reporting solution, delivered by a two tier MIS (Management Information Systems) service. The solutions offer Real-Time Agent List*, Real-Time Hunt Groups, Agent Call Control* and ACD Activity* along with Archive and historical reporting on Calls By Agent* and Calls By Hunt Group.

MIS1000

MIS1000 is positioned to deliver a service where traditional Call Logging & Call Management systems have required software. MIS1000 is ideal for any business that values good customer service delivery.

MIS2000

MIS2000 delivers a service where traditional Call Centre ACD and MIS reporting systems previously required software.

* Available on MIS2000
